No problems
Only Solutions

Welcome to IT Development AS

ITD is an IT based company established in Norway, since 1994. We provide business solutions by incorporating IT for companies coming from diverse sectors. We offer solutions for an environment where business and technologic strategies congregate and focus on new ways of business by combining IT innovation. We work with new generation companies to implement far-sighted business and technology strategies in today's world of digital environment.

IT DEVELOPMENT
we make IT work.

Reaching goals successfully is
a continuous journey
of hard work and commitment
Goals...

ITD provides IT services to partners worldwide focusing on technology-driven business solutions that meet their strategic objectives. We believe in ever evolving industry practices and employ them in our solutions to deliver tangible results.

We provide a host of services ranging from corporate hardware solutions, security solutions, software development, web solutions, mobile apps to multimedia solutions for clients that promise better value for their investment. Our creative & technical team collaborates to deliver results on time and within the budget.

IT DEVELOPMENT

An invincible determination to accomplish
is what separates us from the rest

Determination...

Our creative vision enables us to excel in developing powerful solutions to meet our partners' business challenges and deliver immediate and quantifiable results.

ITD provides innovative, reliable and strategic technical solutions to its partners' business predicament. We evaluate their needs, goals and budget by working directly with them to develop a customized solution that turns out to be suitable and cost-effective. We capitalize their investments by helping them achieve long-term results and develop solutions that are reliable and adaptable over time.

IT DEVELOPMENT
we make IT work

An Idea can

Change

Your Life...

ITD provides cost-effective and highly scalable technology solutions for their partners' business needs. With a vision of transforming business opportunities into realistic strategies, we help our partners to gain a competitive edge in the market.

We do not stop here; we are always seeking for new and better ways to obtain business value from IT.

Security Integration

ITD has over 12 years of strong experience in architecture & auditing of security systems in both military arrangements and corporate business communities. We are proud to have one of the top-5 security experts in Norway. As technology is changing rapidly, new innovative ideas and hardware are emerging every new day. ITD takes the challenge to ALWAYS be equipped with the latest information & solutions for your business.

ITD specifically focuses on a SIMPLE but widely-applicable security model, **CIA** triad; standing for **Confidentiality**, **Integrity** & **Availability**. These are the three key principles which should be guaranteed in any kind of secure system. This principle is applicable across the whole subject of Security Analysis.

ITD performs different penetration tests to your current IT system, simulating an attack from a malicious source.

Available safety tests are:
- **External Safety Test**
- **Safety Check for Web Applications**
- **Safety Check for Mobile Applications**
- **Safety Check for Applications**
- **Wireless Safety Test**
- **Internal Safety Test**

Custom Software & ERP Solutions

ITD provides easy to use programming solutions that help our partners to meet their strategic corporate goals through cost-effective implementation, integration and support. We offer:

Web and Desktop Business Applications
We provide n-tiered software applications hosted and managed with in ISS data centre or the partners' intranet.

Content Resource Management (CRM)
With our CRM models you can easily & efficiently manage and interact with all your customers. It involves using technology to organize, automate and synchronize sales, marketing, customer service and technical support.

Enterprise Resource Planning (ERP)
Our ERP system integrates all facets of various departments, including product planning, development, manufacturing processes, sales and marketing into a cohesive system.

Document Management (DMS)
ITD provides a comprehensive DMS to transfer documents and information in to electronic format. The system offers a quick data retrieval by tracking and storing the electronic documents.

IT DEVELOPMENT
we make IT work

Web Solutions

At ITD, we develop fully functional, highly interactive websites for personal & corporate users that automatically become an asset to any business.

e-Commerce Solutions
To gear up online sales, we develop and support e-commerce solutions for our partners with different requirements. We provide our partners with cutting-edge technologies and enabling them to compete in the revolutionary e-Business arena.

Personal & Corporate Websites
Using our wide range of experience and the latest web development technologies, we focus on managing your web project from conceptualization & creation to full development and implementation. Our quality website designs are quick loading, easy to navigate, widely accessible, search engine friendly and CMS integrated.

Online Business Marketing (OBM)
Our OBM department offers a variety of proven techniques developed specifically to target your market and attract potential customers to your site.

Having a website is not enough to fetch substantial business benefits, until your potential customers across the globe can reach it at a time when they are looking for products/services you offer.

IT DEVELOPMENT

Mobile Solutions

Mobile is the ultimate disruptor. It is disrupting the way people interact with computers. It is disrupting the way people interact with each other. It is disrupting the way people buy software, now called "Apps". Today, having a mobile application is a "must" for any business. Our Mobile Application Development department works on various Mobile platforms like: iOS, Android, Windows, Blackberry and Symbian.

ITD is specially designed to fulfill all your Mobile App needs. Our creative & innovative ideas are always equipped with next generation Information Technology.

ITD mainly focuses on the following domains for mobile apps' development:

•**Custom Made Mobile Apps**
•**Mobile Banking Apps**
•**SMS Apps**
•**Mobile e-Commerce Apps**
•**Mobile Games**

2D / 3D & Multimedia Development

We provide the right technical solutions for your needs. ITD offers the following multimedia services:

Print Media:
We design logo concepts. brochures, letterheads, envelopes and business cards, while keeping in mind the requirements of our partners.

Interactive CD ROM:
We make CD-ROMs so that your organization's information and work can be viewed offline and by those without access to Internet.

3D Modeling & Animation:
We create cutting edge 3D models and animations for product visualization and architectural walkthroughs.

Video Documentary:
ITD specializes in making corporate video documentaries according to our partners' requirements.

Corporate Branding

ITD helps its partners, define what their company is and where it is headed. We help them determine exactly what their brand stands for, so they can achieve maximum return on communications, spendings, business processes and assess all employees' behaviors.

Product Visualization

We create a direct link between the viewer and the product by using an interactive modus with animation.
